Design Cart Minimal 4 – Installation Guide

Follow these steps to install and activate the **Design Cart Minimal 4** theme for OpenCart:

1. Unpack the Package

First, extract the contents of the installation ZIP file on your computer.

2. Upload the Files via FTP

Open the extracted folder. Upload the entire contents of the `upload` directory to your server, placing them in the root directory of your OpenCart installation. Overwrite any existing files if prompted.

3. Install the Extension via Extension Installer

Log in to your OpenCart admin panel and navigate to **Extensions → Extension Installer**. Upload and install the file named `dc_minimal.ocmod.zip`.

Once installed, go to **Extensions → Modifications** and ensure that "dc_minimal" appears in the list. Click the green plus button (**Install**) next to it.

4. Activate the Theme

Go to **Extensions → Themes**.
Find **Design Cart Minimal 4** in the list and click the green plus button to activate the theme.

5. Configure the Theme

After activation, click **Edit** next to Design Cart Minimal 4.
You can now adjust the theme to your needs: set your custom colors, upload a banner image, edit interface translations, set the status to **Enabled**, and save your changes.

6. Set the Theme for Your Store

Navigate to **System → Settings** and click **Edit** on your store.
Under the **General** tab, find the **Theme** option and select **Design Cart Minimal 4** from the dropdown menu. Save your settings.

7. Clear the Cache

After completing all steps, clear your modification and theme cache to apply changes.
Go to **Dashboard → Developer Settings** (the gear icon in the top right corner) and click both **Refresh** buttons.
